Ashbrook Simon-Hartley - USA

- Belt Filter Presses, Klampress and Winklepress
- Centrifuges
- Gravity Belt Thickeners, Aquabelt
- Rotary Drum Thickeners
- Sluice / Slide Gates, Coplastix
- Deep Bed Sand Filters
 - Water Wastewater and Denitrification
- Controls, valves, media, sweeps, etc
- Water and Wastewater DAF

ITT Leopold

- Hydrotech Discfilter
- Actiflo Enhanced Flocculation and Clarification
- Class A: Solia solar dryer, Biocon energy recovery dryer
- Biostyr – submerged media bio- aerated filter (BAF)
- Oxidation ditch technology
- UF/MF Membranes
- Kubota MBR Wastewater Membrane Systems
- MBT - Membrane Thickening and Digestion
- Aerobic Digestion Systems / non clog diffusers
- Clarifiers

Kruger Inc.

- Progressive Cavity Pumps
- Thickened solids pumps
- Cake solids pumps
- Macerators

Ovivo USA

seepex.com

- Gasification Systems
 - Waste to energy systems
 - Design, build, own and/or operate options

MaxWest

Walker Process Equipment

- Clarifiers
- Gravity Thickeners
- Anaerobic Digestion Equipment
- Grit Removal

Philadelphia Mixers

- Vertical mixers
- Submersible mixers
- Mechanical aerators
- All mixer rebuild and repair

SPIRAC

- Shaftless screw conveyors
 - Horizontal, vertical, and incline
- Sludge receiving stations and silos
- Screening conveyors, compactors, dewaterers

WACO Products

- Sluice / Slide gates
 - Stainless steel
 - Aluminum

Enpro Technologies

- Chemical feed system integrator
- Chemical skids/systems, custom designs
 - Sodium hypo, alum, caustic, fluoride, etc
- Lime silos, feeders, activators

Stranco/Siemens

- Polymer feed systems
 - Liquid and dry batch systems

Calgon Carbon

- UV Disinfection equipment
 - Water and wastewater

Shand & Jurs

- Industrial tank equipment
 - Digester tanks, pressure relief, flame arrestors, tank gauges, tank vents, gauge hatches, manhole, vapor recovery

Keller Conveyors

- Belt conveyor systems
- Screw conveyor systems

BioAir

- Biotrickling Odor Control
 - Synthetic media for inorganic and organic odor
- Full custom designed systems
- Skid mounted systems available

Fenton Environmental

- Class A – Fenix Biosolids drying systems

Pinnacle Ozone

- Ozone Generation Systems
 - Process independent, quad block technology
 - Up to 35% smaller than other systems
 - Up to 25% more energy efficient

Process Wastewater Tech

- Screw Press, Volute Dewatering Press
- Screw Thickeners

PCI

- Oxygen Generation Systems, VSA
 - Produce oxygen at point of use
 - Avoids operational and environmental impacts associated with transportation of oxygen
